63. Aviation Operations: Interagency use of, and billing for, aircraft will be in accordance with procedures mutually established by the Agencies. Interagency aircraft use guidelines are attached hereto as Exhibit G, Interagency Aircraft Utilization Guidelines. Aircraft contracts require their contractors to bill the "contracting agency" for all payments due. State and Federal Agencies' contract aircraft used by other parties herein under the Assistance by Hire terms of this agreement will be paid by the contracting agency. The contracting agency will, in turn, bill the using agency for all Assistance by Hire aircraft use. The "administrative charge," used for all Assistance by Hire billings, will be added to all charges for use of contract aircraft.

The United States Forest Service will not apply an "administrative fee" as per agency procedures. For BIA "administrative charges," see the "Annual Operating Plan for Cooperative Incident Billing Procedures" or the "Cooperative Fire Protection Agreement between U.S. Department of Interior, BIA and State of California Department of Forestry and Fire Protection."

The State and Federal Agencies agree to bill each other only for like aircraft costs. These costs are divided into two categories: Flight and Availability. The "Annual Operating Plan for Cooperative Incident Billing Procedures" contains additional definitions and explanations on aircraft billings.

65. Accounting for Assistance by Hire Costs: The State and the Federal Agencies will document all expenditures incurred for providing Assistance by Hire services under the terms of this agreement. Expenditures include both direct costs and indirect or administrative costs. The administrative charge, used for all Assistance by Hire billings, will be applied to all direct costs. The State and the Federal Agencies shall use a comparable method to determine the rate for such administrative charges. All costs will be calculated using established agency procedures.

The United States Forest Service will not apply an "administrative fee" as per agency procedures. For BIA "administrative fees" or indirect costs, see the "Annual Operating Plan for Cooperative Incident Billing Procedures" or "Cooperative Fire Protection Agreement between US Department of Interior, BIA and State of California Department of Forestry and Fire Protection."
